

# THE HAMLIN HERALD

IN 38th YEAR — EVERY WEEK SINCE 1905.

HAMLIN, JONES COUNTY, TEXAS, FRIDAY, APRIL 9, 1943

NUMBER 23

## Biggest War Fund Drive Starts Monday

Monday, the 12th of April is designated as the start of the United States' greatest drive to sell War Bonds. THIRTEEN BILLION dollars worth of bonds are scheduled to be sold. The newspapers of the land are given the responsibility of setting forth the plans of the huge task as well as the need. Please do not get "fed up" on War Bonds headlines and War Bonds information.

This gigantic task is in keeping with the magnitude of our magnificent army and navy now standing ready to whip the stuff out of the axis. To fail to meet the "money" end of this war would be as much for Hitler and Tojo and old Mussi to laugh about as a first class defeat of our forces in Tunisia. We must add our individual efforts to make a touchdown.

This paper is carrying a full page from the Chamber of Commerce, as their part in helping convey needed information to Hamlin people. It is as much one person's responsibility to buy a bond as another. This is one time you can't shift to the other fellow's shoulder. Do any of you remember back in 1917-18, that time when people were almost commanded to buy or be labeled as yellow slackers? Remember? Do you remember the time we, all heads of families, unless actually sick, had to assemble in the old tabernacle while all the business houses were closed tight? Remember Hamlin raised in one afternoon, more than \$40,000 in Liberty Bonds. Don't you remember how proud we all felt over doing that job, even in the midst of the worst drouth in our history? Remember?

Now things look so much more "rosy". Let's do our part in this big drive. Ere long our boys will be going over the top, and if they realize how the folks back home are lending their money to help win the war they will feel better. And to make a dying kid feel better or to bring him home should be our greatest ambition. Let's kick in and not kick about something we, none of us can help.

Mrs. Art Carmichael and Mrs. Henry Albritton attended the meeting of the First District of Texas Federated Clubs which convened in Mineral Wells, Tuesday and Wednesday of this week.

### Notice Concerning Tax Assessments

For your convenience, I have arranged for Mrs. Grogan Turner to assess taxable property in the Hamlin-Jones County Territory, and she will appreciate your co-operation. Mrs. Turner will be at the Hamlin City Hall during April, on the afternoons of Monday, Tuesday, and Wednesday of each week. Please step in if she has failed to see you, and render your property for 1943 taxes. (23-2t)

BURT DEAN,  
County Assessor-Collector

### School Course Starts On Raising Chickens

The Vocational Agriculture Dept. of Hamlin High school will sponsor a 20 hour course in increasing poultry for meat. This course will start Monday evening at 7:30 P. M.

The government is wanting some four billion pounds of poultry. Why not come to this school and learn how to start chicks off correctly and protect them from diseases? It is very important that these points be studied to reduce the loss of chicks.

Along with this course will be a caponizing school. Capons are very good meat birds. Ordinary heavy breed cockerels can be made to weigh from 6 to 8 pounds heavier than cock birds of the same breed at 12 months old. Capon prices are from 6 to 10 cents above turkey prices. One can make a good deal of money if capons are raised in large enough quantities.

All persons, men and women, who are interested in this work, come out Monday evening at 7:30. Since meat is rationed and chickens are not, you have a pretty good chance of having all the poultry meat you want if you know how to raise chicks.

Rev. and Mrs. J. E. Harrell, Mrs. C. P. Yates and Mrs. G. R. Bennett attended the annual conference of the Woman's Society of Christian Service which was held in Lubbock this week. Mrs. Yates was official delegate from the Woman's Society of Christian Service of the Hamlin Methodist church.

### Two Elections Quiet As The Snow Fall

Last Saturday there was a school trustee election. There were two to elect, and but one name on the ticket. "One up, two nailed down." That means Dick Low, a young father, a young stockman, and a young school boy here a few years ago, was the only name on the ticket. But in the out-of-town absence of Herman McBride, his name was "writ" in and so the two chosen were Dick and Herman. About 30 votes cast.

So much for school trustees. Now on Tuesday, the City had an election. Two aldermen had to be elected, and there were two on the ticket, and the two were elected. B. B. Colwell, resented and along with him was R. H. McCurdy. Only 36 votes cast. It is not clear which one failed to vote for the other, anyway. B. B. got 35 votes and R. H. 36. The only way we can figure it out is that Colwell scratched his name and Roy failed to do likewise. But there is a rumor that neither one voted.

### Four-County School Meet At Anson Sat.

The Herald is requested to announce that the Sub-Regional Inter-scholastic Literary and Track Meet, for four counties, including Jones, Haskell, Stonewall and Fisher, will meet in Anson this Saturday.

All events, except Boys' Tennis, will begin at 10:00 A. M. Saturday, and the Boys' Tennis will start at 3:00 P. M. Friday.

Only schools that have paid the League fees will be eligible for this Sub-Regional Meet. Only winners in the Sub-Regional Meet will be allowed to participate in the Regional Meet. This is NOT a District Meet. Only the events that will be held in Regional Meet will be run off in the Sub-Regional Meet.

The Regional Meet will be held "somewhere" on April 24th.

Also, we understand that the girls Invitational Volley Ball tournament will be held in Anson, Saturday. Those interested in any of the above statements and want more information would do well to communicate with the School Superintendent at Anson.

### FLAT TOP NEWS

By Laverne Jenkins

Mr. and Mrs. W. B. Whiteley and family visited Mr. and Mrs. Alfred Dunn at Avoca Sunday evening.

Visitors in the home of Mr. and Mrs. E. D. Jenkins Sunday were Mr. and Mrs. Herbert Stremmel and son Larry of Sagerton and Mr. and Mrs. Buddy Jenkins and daughter of Dovie.

Mr. and Mrs. L. A. Hill and family spent Sunday with Mr. and Mrs. O. R. Greenway of Hamlin.

Mr. and Mrs. Loy Nelson and family visited Mr. and Mrs. Henry Holloway of Neinda lats week.

Mr. and Mrs. Louie Jones of Lubbock spent the week end with Mr. Frank Barton and Betty.

Mrs. Edna Malone and son W. T. of Oklahoma, were here Friday and Saturday visiting old friends of the Flat Top community.

Miss Winnell Schrimsher spent the week end with her parents, Mr. and Mrs. A. A. Schrimsher at Stephenville.

Mr. W. S. King and Mrs. Cloda Hubbard and little daughter, Kay, of Littlefield, spent the week and with Mr. and Mrs. Earl Brown.

Mr. and Mrs. Harry Burkett and little sons spent the week end with Mr. and Mrs. Ollie Estes of Boyd Chapel.

The Defense Club met Friday night with Mrs. Dee Rankin entertaining with games of progressive 43. Mr. Charlie Carter won high score. Sandwiches and a drink will be sold at our next meeting April 16th.

Rev. Holt of Hardin-Simmons preached here Sunday and Sunday night. We were happy to welcome four new members into our church Sunday night.

Typewriter Ribbons—Royal and Woodstock for sale at the HERALD.

## WAAC's Win Weight And Are Proud Of It!

(By Auxiliary Merita Mills)  
When a woman gains weight and loves it, that's news!  
But, take it from the WAAC'S, it can happen here.

Don't ask me how it happens. All I know is that I went into the corps at a round (and I mean round) 120 pounds. I weigh 125 now, after six weeks of training and can look at the girl pictures in Esquire without a single quiver of envy.

The fact is, Uncle Sam is operating, strictly as a byproduct of military training, one of the greatest beauty culture schools in the country. He's making us firm and lean muscled and giving us swings to our walks and tilts to our chins that civilians can't duplicate.

He's flattening out lumpy hips, slimming down chubby ankles, smoothing out double chins. And sometimes he builds curves where only hollows were before.

It's not done by diet. Diets are declass in the WAAC. You don't need them, and besides there's no time for calorie counting.

I blew in the other day from Fort Des Moines with eleven other auxiliaries to be assigned to recruiting duty in the Eighth Service Command. We brought a dozen of the healthiest appetites in the Western Hemisphere. Civilian women look agast at the meals we order, and we watch their frugal eating with pity as we go back for another piece of chocolate cake.

When I say we, I'm not using the editorial connotation of that pronoun. Healthy appetites are sort of a universal possession of the corps, like our uniforms or the Pallas Athene insignia.

Yet Auxiliary Lucille Neyer from Ohio, one of our party, used to wear size 16 civvies, now pulls on G-I 14's. Auxiliary Rosemary Kreiger, who used to be a Powers model and was good to look on when she became a WAAC, has gained five lbs. and is even better looking. She used to pass up starches for spinach, but now her only fear is that pastry will be rationed.

Mary Webb, an auxiliary from North Carolina, had been trying to gain ten pounds for ten years. She got it in ten weeks of WAAC training.

"I guess they just plain walked it on me," she says.

A sedentary secretarial existence had made Auxiliary Tommie Collins, shall we say, rather generously proportioned before she joined the women's army. She has lost twelve pounds now and feels swell.

Those are just examples. It apparently doesn't make any difference where you're sent for training, the same miracle happens. The girls at Des Moines get roses in their cheeks and the classes at Daytona Beach accumulate a million-dollar coat of tan.

It starts the day you arrive and it keeps up. Perhaps the regular hours, physical training programs, military drill, three hearty meals a day and a schedule of classwork that leaves no time for comedy or lazy fat, have something to do with it.

Anyway, some of us are gaining and some are losing—and, glory be, in the right places!

## First Baptist Revival Begins On April 14

Rev. H. R. Whatley, pastor of the First Baptist church of Haskell, will be the evangelist in our spring revival which begins next Wednesday evening. Rev. Bill Bell, pastor at Tye, and a student of Hardin-Simmons University, will lead the singing. Evening services will begin at 8:00; week-day morning services at 10:00.

If you are interested in real Bible preaching, preaching without frills but shot through and through with the Scripture, hear Rev. H. R. Whatley. He is a man's preacher, and has one of the largest Men's Bible Sunday School classes in West Texas. This is a real opportunity to hear him. God's message in a unique way.

H. E. East, Pastor

### The First BAPTIST CHURCH

Here is a special invitation to attend our services Sunday night. This is to be a special Young People's service, and the sermon is prepared with them in mind. The subject will be "We Believe The Bible." Believing the miracles of this book is not as difficult as it was for people of another generation to believe in many modern inventions. Come hear about a school board of a century ago that forbade debates on the practicability of locomotives and telegraphs. Hear about the ban placed on the first bath tubs. Then decide whether it is old-fashioned to believe the Bible.

Sunday School, as usual, at 10:00 A. M. This is high attendance day for the Primary Department.

Morning worship comes at 11:00. Training Union at 7:30. We want you in these useful services!

H. E. East, Pastor

### WISE CHAPEL NEWS

By Catherine Drake

All the farmers are very busy getting their seed in the ground.

Brs. Bernice Reed and son and Mrs. W. L. Hunter of Hamlin visited Della and Catherine Drake Monday afternoon.

Mrs. Junior Patterson and daughter of Hamlin are visiting her parents this week, while her husband is in Dallas.

Mr. Tom Henderson and Mrs. Claude Smith and son of Merkel and Mrs. E. Wright of Alda spent Sunday with Mr. and Mrs. Clifford Eoff and son.

Mr. and Mrs. W. A. Norris and family of Whiteface spent the week end with their parents, Mr. and Mrs. O. L. Jenkins and Mrs. Alvis Bond and baby.

Mr. and Mrs. Wallace Walton of Flat Top and Mr. and Mrs. W. D. Stahl and children spent Sunday with Mr. and Mrs. John E. Walton.

The writer got a letter from Mr. and Mrs. Reed Young of Cisco last Thursday with a dollar for the Herald a year.

Thanks, Mr. and Mrs. Young. Mr. Young is well known in this part of the county. He is a barber in Cisco.

Mrs. George Potter and Mrs. Brennie McClary and daughter spent Monday with Mrs. Oscar Potter and were shopping in Anson.

Mr. and Mrs. Pete Bond and little son, Carl of Orange, came up last week to attend the funeral of Mrs. Tom McGuire. Pete is a ship welder.

## THIS WEEK

A LITTLE BIT ABOUT

*This*

AND A LITTLE BIT OF

## THAT

—That little rain Thursday morning softened up the Victory Gardens.

—That reminds us.... what did you think about the President vetoing the Farm Bloc bill? Really, didn't you think he was right? If nothing more, the veto stopped a certain speech before the Texas Legislature.

—Everybody wants the products of the country to bring substantial prices.... all of us want prices for what we sell, but there is another angle, we would hate to see a wild inflation.... If every little hour of work about the gardens, the farms, the cow lots, the pastures was paid on a salary basis of the skilled worker, eggs would be \$1.15 per dozen. Beans 85 cents per pound, cotton 95 cents per pound, wheat \$4.80 per bushel, and spuds maybe 45 cents per pound.... so would be the cost of shoes, pants, hats, sox, hoes and plows, and hair-cuts and doctor's bills.... inflation spreads rapidly and cuts all down alike.... It is hard to tell what's best.

—This week the war is going "Our Way".... the Germans are getting blasted and then we'll see things pop.... they can't stand what our boys are pouring on 'em from the air, from the hills, and from the sea, all at the same time.... things are shaping up for a kill, equal and more important than Dunkirk.

—It sounds unnatural for Americans to say it, but who has sympathy for the Italians and Germans when their cities and homes are blasted? It is what they asked for. Let's give 'em "shot and hell."

—Do you want to do something that will please some lonely soldier? Then use some of your time writing him a letter. Think of a boy away over yonder seeing others getting letters and he none. But be sure and not tell him sour stuff, something he can't help. Paint a picture of cheer.... and there's plenty of sunshine about Hamlin to tell the men at the front.... for example.... the crop outlook is ideal, health is fine, money is plentiful, work can be found by all who will work.... also tell him the folks down here think of him every hour, and expect him to come rolling in with a big victory for old Dal and Mom. Sis, little Brother and "The Gal back home," some day not far away.

### "A Cow Has Six Sides"

London, England — A cow has "six sides" and "is arranged for milking," according to an essay written by a ten year old boy from the East End slums of London and made public by Ernest Brown, Minister of Health.

The boy had been evacuated from the city to the country, where his amazed eyes beheld a cow for the first time.

"The cow is a mammal," the boy wrote. "It has six sides, right and left and upper and below. At the back it has a tail on which hangs a brush. With this he sends flies away so they don't fall into the milk. The head is for the purpose of growing horns and so his mouth can be somewhere. The horns are to butt with and the mouth to moo with. Under the cow hangs milk. It is arranged for milking.

"When people milk, milk comes and there never is an end to the supply. How the cow does it I have not yet realized, but it makes more and more. The cow has a fine sense of smell and one can smell it far away. This is the reason for the fresh air in the country."

—From The Rotary Bulletin

C. C. Cohorn and O. L. Cohorn were called to Lamesa this week to be with their brother, M. L. Cohorn who is seriously ill.

Mrs. Fred Moore left last week for Wellington, Kansas to visit her mother, Mrs. Anna Calhoun and her sister, Mrs. Aline Harrison.

### COTTON IS A WAR CROP!

Cotton supplies five essential war materials... NO OTHER CROP SUPPLIES ALL FIVE.

Every 10 pounds of gunpowder contain about 6 pounds of cotton lint.... WE NEED MORE GUN-POWDER AND MORE COTTON LINTERS.

Cottonseed oil production helps to guarantee enough food, and anti-freeze and cooling fluid for our fighting planes... WE NEED MORE ANTI-FREEZE AND MORE COTTONSEED OIL.

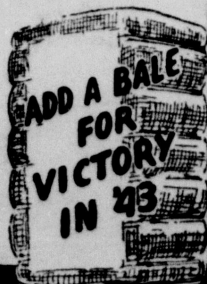

Cottonseed Meal and Hulls are essential for livestock production... WE NEED MORE MEAT AND MILK AND MORE COTTONSEED MEAL AND HULLS.

You help to win this war when you plant every acre of cotton permitted in 1943... when you fight weeds and insects... and when you produce every pound of cotton—WAR MATERIAL—that you can.

FIGHT HARDER BY PRODUCING MORE AND BETTER "VITAL WAR MATERIALS"

## For Thirty Pieces of Silver?

A letter from members of the 750th Tank Battalion, Company A, at Fort Knox, Kentucky, to workers who recently struck in a war industry, said in part:

"We feel deeply hurt to think you would let the boys overseas down. Just what do you think would happen to this country if the boys overseas would sit down, and quit fighting because they just make \$50 a month? We need more fighting equipment. What do you Americans want? More money now and slavery later, or less money and freedom? Just think how some of your sons and brothers over there would feel if they knew how you were selling them out, and that's what you are doing when you stop production."

There is a Bible story of a sell-out for 30 pieces of silver. Read it.

— o — o — o —

The Herald has seen a letter from Tommie Kidd, a Seaman 2-C, stationed in Alaska. Tommie says "Today is sunny, something new in Alaska—most of the time it rains." He also says, "I got a letter from Maurice in Kansas. He says he does not like it a bit—but he's better off than I am." No letter we have seen has impressed us more than this young fellow begging for letters and news from home. Gosh! You bet, Tommie, The Herald will start right NOW.

— S &amp; S —

Corporal G. W. Powell (husband of the former Mary Beth Moody) was all smiles on a Sunday visit in Hamlin with his wife and Mr. Moody after being on maneuvers down in Louisiana the past two months. Cpl. Powell is a West Texas man who loves the wide-open here better than the Louisiana swamps.

## CHEER UP BOYS, THE GIRLS ARE HELPING

March 30, 1943

Dear Mr. and Mrs. Pope:

Knowing her many friends there will be interested, I've enclosed a writeup of the wedding of Faye Barton.

My work here is still very fascinating to me. As you know, I am an instructor in the Sheet Metal Dept., at Kelly Field. The oddest thing about it is to be teaching men and women twice my age, and young boys and girls younger than I, many Mexican boys and girls, and quite a few negroes, all in one class together. If that doesn't prove we're united and all fighting for one goal, what does? Most of our students who come out to learn to be aircraft mechanics have someone in the service they're behind—and that makes them all work harder to become trained mechanics who will keep our boys in the air.

I am to leave for Akron, Ohio, April 8th to study more about our bullet-proof fuel tanks for our aircraft. I'll only be there for two weeks, but hope to learn a great deal in that time.

San Antonio seems nearly like home at times; so many of us are here and so many of the boys are stationed here for a short time. But we all miss being there a great deal; however, we are all in an industry that's behind our boys in the fighting fronts and that's the least one can do now. We only hope they know we're all behind them 100 per cent and working hard to give them planes, shells, tanks and equipment. We're working hard to get them back home soon and each night we know we're one day closer to victory because they're out there winning that victory for us.

Give my regards to my friends there. We look forward a great deal to every Monday because that's our Hamlin Herald day. Keep up your good work.

Sincerely,  
Hazel Adkins

(Hazel, your letter proves what a "little ole girl" can do when your boy friends begin to fly those planes into the "jaws of death" and the bullets begin to patter on your "proof" tanks, we hope they will think of Little Hazel Adkins. With a few more millions doing their part as you, God will grant us victory quicker than you think).

— S &amp; S —

## NEINDA BOY WRITES LETTER FROM INDIA

Monday, Mr. and Mrs. F. W. Poe were visitors at the Herald office, and they left a very interesting letter from one of the boys of their neighborhood, Charles Alexander. Let us give you part of it. (Note it was not long comin'g).

India, March 5

Dear Mrs. Poe:

"Surprised and happy was I to receive your letter. As you may know, that a letter with news from my home is always welcome. Although it is a small place, it is far better than any town or distant country I have visited so far. I can hardly realize that I am so far from it, but am looking forward to the day that I will be able to come back and that Hitler and Tojo will know what we Americans know and fight so hard to keep. So far I have not had the chance of meeting any of the little 'Yellow Rats', but it is still my ambition.

"I will try to give an idea of what India and her millions of caste and customs are like. (Maybe the censor will not be too rough).

"We arrived in India in May, 1942 and I thought that this was indeed the hottest place I had ever seen. The thermometer starts at 90 degrees here and goes on up to 125. About the first thing I noticed here was the millions of beggars on the streets, and we, as chumps, would give them one Anna (about 2 cents in American money) but they were never satisfied and always asked for more. It did not take us long to find them out and know they always had more money than any of us.

"I suppose the Hindus have about fifty different holidays and festivals during the year for every other day seems to be a holiday and lasts for about one week or a month at a time. They are a very religious caste and worship many idols. The cow is about the most sacred to them, as they dress them up with trinkets and paint and allow them to roam the streets and enter any of the houses. A cow will venture into some funny places. A Hindu man may have as many wives as he wants, provided he can support them. A Hindu woman is never allowed in public and very seldom leaves the house, only to work. She earns most of the living, if you would call it that, doing hard labor such as plowing, building roads, and her wages average about 9 to 10 Annas a day and she works from daylight to dark. You could never imagine what it is to be poor until you have seen some of the people who exist here. They are poorly dressed and there are millions with diseases among them, malaria being the most common. Millions of them die every year with it, all for the lack of medical care. One of the most horrifying sights I have seen since coming here is the burning of the dead. In many instances such as during the rainy weather, they will throw the bodies into the river and let the turtles and fish eat them. I was lucky to get a picture of a turtle eating a small child while afloat.

The Indian, in one way, is pretty smart, as prices have doubled their value ten times since the American soldiers arrived. We pay about Five Ruppee (\$1.50) for a roll of Kodak film, also a show ticket costs about 2 1-2 Ruppee and most of us have seen the shows years back.

"Mrs. Poe, thanks a million for the Hamlin Herald. Will be looking forward to its coming. Just remember us in your prayers, as I know you do. We will pull through this bloody conflict with flying colors and return to our loved ones safe and sound.

Sincerely,  
Charles Alexander

— S &amp; S —

Mrs. Frances Scott has received word that her son, Second Lieutenant Bill Scott, who is stationed at Camp Bowie, has been promoted to First Lieutenant. Bill is another Hamlin Pied Piper who is making the goal.

## About Soldiers--Sailors

Pvt. Robert Monis Bessire of Camp McCain, Miss., son of Mr. and Mrs. R. E. Bessire, writes his parents he is recovering from a case of measles. He was in the hospital several days.

— S &amp; S —

The Herald seldom ever hears from Fred B. Moore, but this week we have the information he has been promoted to Staff Sergeant at Gore Air Field, Montana. Fred is making good in many ways as a soldier in the airplane Ferrying Group. Sgt. Moore got to come home just one time, and his jovial spirit proved he was in there to pitch till this thing is settled.

— S &amp; S —

Pvt. Melvin Motley came up from Ft. Hamilton, New York, on a short furlough. He is in the Quartermaster Service and has been in six months.

— S &amp; S —

Pvt. Esequiel C. Martinez is here on a furlough from Salem, Oregon. This young fellow is only one of many Mexican boys in the service of their country.

— S &amp; S —

Pvt. Roy L. Embrey of Camp Howze, Texas, spent Saturday night and Sunday with his mother, Mrs. Rosa Embrey.

— S &amp; S —

Corporal Ardis H. Trotter, one of the handsome young fellows from Goodfellow Field at San Angelo, came up Monday night to spend a few days with his parents, Mr. and Mrs. Clyde Trotter on North Farwell Avenue. We saw this young soldier trying to get some gasoline to get about on while here, as his Dad had but one coupon left. Think of a soldier having to beg for gasoline! Gosh Whizz, they should have all the gas they can use. Think of a young fellow coming in home and not getting some gas to auto his girl or wife around a little. We are for letting the War-Men have anything they can use with safety, while at home. When they leave they may never come back, or if they do, they may not be able to drive a car, then what? We do not mean to say a soldier boy has been denied gas, but "them's our sentiments"... I'd give it to 'em if we had to go to jail for it.

— S &amp; S —

Pvt. John C. Jenkins has been transferred from Sheppard Field to Kingman, Arizona, where he will have six weeks of gunnery practice, although he is specializing in radio.

— S &amp; S —

Mr. and Mrs. Sid Liles are getting letters right along from their son, Spencer Lee, who is rated Seaman 2-C, on a big ship somewhere in the Pacific. Spencer says, "It is not all heartaches and sorrow to be out here. If I could see you all once in a while, I wouldn't worry"... another letter he says, "I'm feeling fine, 'cept nursing a nice sunburn. I mean I'm red all over! I sure had a swell time today, a bunch of us went on a swimming party, but we didn't do much swimming. We climbed coconut trees and ran thru the jungles all afternoon. I'll probably have a stomachache tonight from eating coconuts." Well, that is something for home folks to learn, and say, folks, Mr. and Mrs. Liles have another son, Bobby Joe in the Navy at San Diego.

— S &amp; S —

The Herald is glad to pass on the information that our friend, M. Y. Wilson, is still "going up". He is no longer Aviation Cadet Wilson, but NOW he is a Commissioned officer, Lieutenant M. Y. Wilson in the Aviation Cadet Corps at Maxwell Field, Alabama. His title is Squadron Adjutant. This rank is selected from several hundred men and is reached on a competitive basis. Here in the "Hamlin bleachers" the fans are yelling congratulations to every Piper kid who is down there pitching and pushing. Not all of them are going to get the ball and make a touchdown, but every single one will add his brains and brawn to win the game.

— S &amp; S —

Monroe Millorn, age 17, has landed at San Diego as a navy boy. He started training there on March 29. His brother, Alford, is on the Atlantic and has made three trips to Africa. He is 19 years of age.

— S &amp; S —

Over in Victorville, California, is an Army Flying School by the same name, and from this school on March 27 another of Hamlin's young men, Walter Wade Wilemon, Jr., was commissioned as a Lieutenant with bombardier wings. He is a Pied Piper graduate. Remember ibm, what a piece of lightning he was. Any enemy that gets under this winged warrior will cease to yell "heil Hitler."

James Milsap has been out of the army since March 10, getting home on a temporary discharge, known as CDD, meaning a Civilian Disability Discharge. James was in the army one month and 19 days. He is back at his old job in the Plasterco Mill.

— S &amp; S —

Pvt. Boyd Ellison was at home for the week end, after being down in Louisiana on maneuvers the past two months. Boyd looks quite soldierly now and tough as an old boot.

— S &amp; S —

Sailorman Max B. Carlton secured an eight days extension to his leave of absence and will get to enjoy extended sleep at home and tan up on this West Texas sunshine before rejoining his big ship in the Pacific. Max has been roaming over that old pond for many months, hunting for Japs.

— S &amp; S —

Staff Sergeant J. P. Bingham came home from Hawaii on Thursday night of last week on a furlough to visit his parents, Mr. and Mrs. J. P. Bingham east of Boyd Chapel. Sgt. Bingham has not been at home in three years. He was in Hawaii on the famous Dec. 7th and can tell a lot of interesting things about the way the Japs hit our forces there. But he is a Regular Army man, having served almost seven years. He is in the Anti-Aircraft Artillery. When he returns to duty he will be stationed at Camp Haan, California, as a part of the training force.

— S &amp; S —

First Sergeant O. D. Conner and family came over from Florence, Internment Camp, Arizona, Monday. Sgt. Conner is detailed to inspect and instruct in the internment camps in Oklahoma, at Ft. Sill and other places. He is one of the old Regulars in the army, now about 14 years.

— S &amp; S —

Coy L. Magee, Storekeeper 2-C, has let his parents, Dr. and Mrs. L. S. Magee know that he has reached the other side, feeling fine. Where he is can be pretty well guessed, and it is not on the Pacific Ocean.

— S &amp; S —

Pvt. W. W. Watson, Jr., came down from the Garden City, Kansas, air field Monday for a 15 days furlough with his mother, Mrs. Buck Watson. The last time this young soldier was in Hamlin he was on his way from Lubbock, and was just recovering from illness. He looks quite well now.

— S &amp; S —

Pvt. John P. May is at home enjoying a fifteen days furlough, from his air field at Garden City, Kansas. John looks the pink of health and does not chirp a word of complaint. He calls himself an old man, but he says "I'm still a soldier." John says he can figure out pretty well what to depend on while in the army, but not telling what they would call on him to do if they let him out. S-o-o-o!

# COTTON GROWERS!

# SAVE

BY PLANTING SEED TREATED WITH

# CERESAN!

Low-germinating, low-yielding seed wastes time, fertilizer, labor! Reduce this waste! CERESAN, still readily available at your dealer's, usually gives uniform stands at a saving in seed; generally reduces losses from seed rotting, sore-shin and certain other diseases; often increases yields 10 to 25%. Plant CERESAN-treated seed! Get CERESAN from your dealer now, or buy seed that is marked with the CERESAN Certificate Tag.

TREAT OTHER SEEDS, TOO!  
Use Semesan Jr. for seed corn; New Im- proved Ceresan for small grains; Semesan for vegetables; Semesan Bel for potatoes.

## When a Feller Needs Another Hand

Butch is in a predicament... one that isn't covered by military training. While he certainly could use another hand, we're betting that Butch will find a way to handle the situation.

In fact, most every businessman, farmer, stockman... every producer in West Texas today... knows just how he feels. They, too, need another hand.

Your Electric Servant has the same problem. Right now, we're being called on to balance good service and low rates against fast-climbing operating costs and shortages of material.

We're doing it, too. Filling every wartime order ahead of schedule in addition to your normal peacetime needs. And besides that, we're balancing a big plate of taxes.

Don't get us wrong. We know the necessity of heavy wartime taxes. We're proud that ours was a sizable portion of the \$620,000,000 in taxes paid last year by America's business-managed electric companies. That was 23c out of every dollar paid for electric service. The total of \$620 million dollars was enough to outfit 1,687,762 soldiers like Butch.

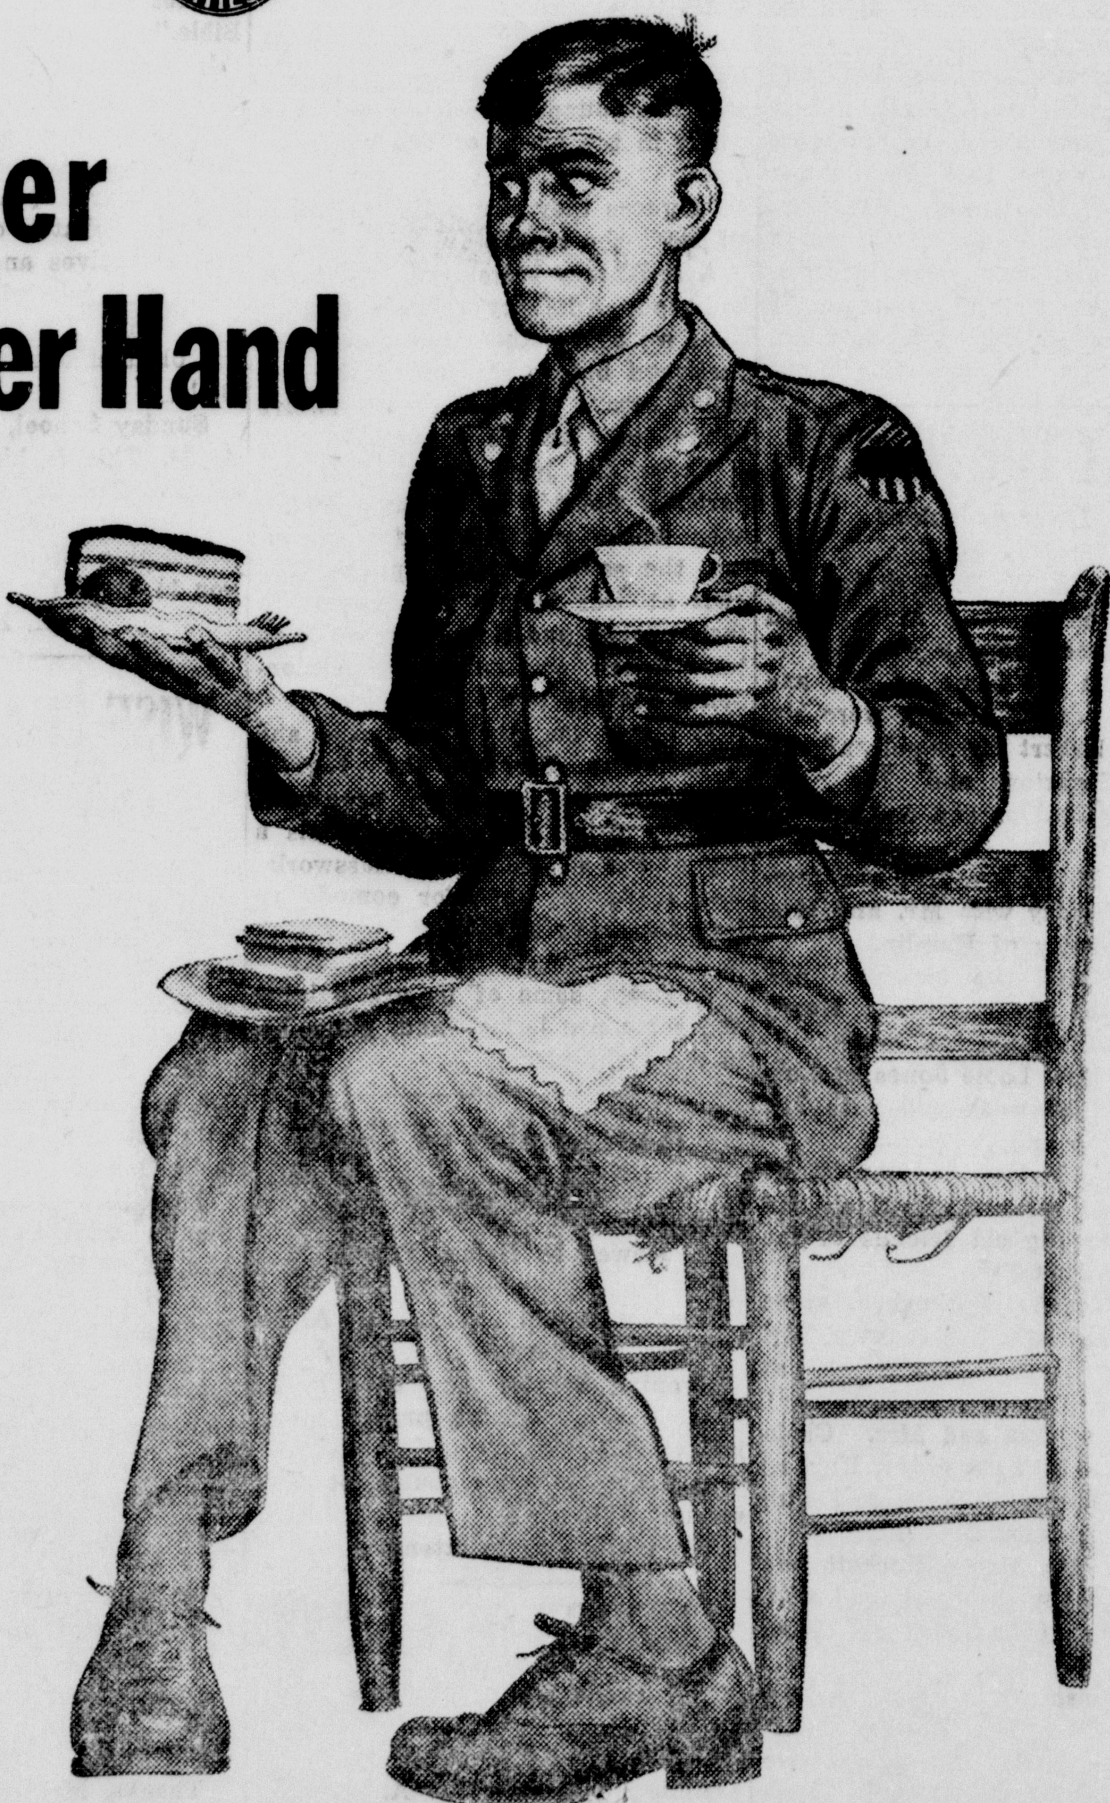

We're proud, too, that there has been no rationing of electricity... and no increase in cost to you!

How is it possible to do this... pay heavy taxes, overcome shortages of material and manpower?

Well, the credit goes to sound, well-balanced business management. And because our trained and experienced organization of men and women are working together as a team.

But while America's electric companies, under business management, are doing all this, government and municipal (politically operated) power systems are not paying a penny in taxes to help win the war.

Shouldn't every one do his full share?

☆ West Texas Utilities Company ☆

INVEST IN AMERICA—Buy War Bonds and Stamps!

# THE 2<sup>nd</sup> WAR LOAN STARTS APRIL 12

## 13 Billion Dollars Must Be Raised!

THE GOVERNMENT of the UNITED STATES is asking us to lend it 13 billion dollars in the next few weeks. We can do it. And we MUST do it. Every American must realize the truth

In this, our toughest war, we've made a good start. We've trained a lot of men—made a lot of weapons—built a lot of ships.

But it's only a start. No man or woman among us would contend for a single instant that we're doing enough NOW to win this war!

### WE'VE GOT TO BUILD MORE!

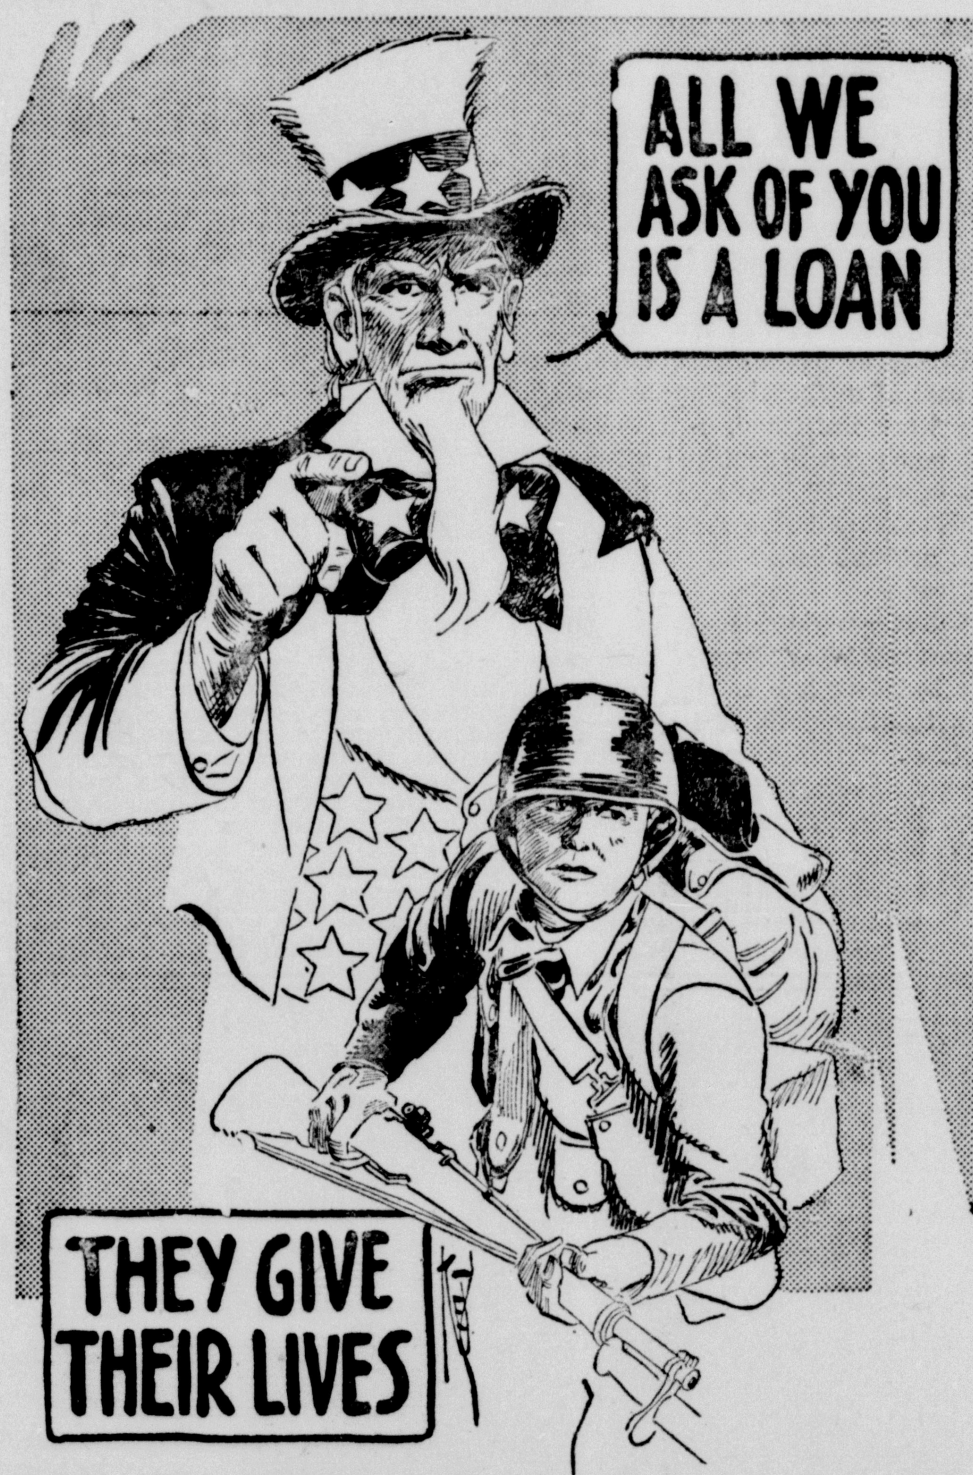

We broke all records building 8 million tons of shipping last year. But grim-faced Army and Navy men will tell you that the 18 MILLION tons we're building this year STILL won't be enough!

### WE'VE GOT TO FIGHT MORE!

From now till this war is won, America must be on the offensive. In ever-increasing numbers, your sons, brothers, husbands must go into actual battle. Our losses have already begun to mount—and they will not grow less.

### AND WE'VE GOT TO BUY MORE WAR BONDS!

Sure we're all buying War Bonds now. But we've got to help pay for our

increased fighting and building . . . . . We've got to match, as best we can, the sacrifice of those Americans who are toiling and sweating on a dozen battle-fronts—with the bloodiest yet to come. The blunt fact is this: to keep our war machine going, we've got to dig up 13 billion EXTRA dollars this month. 13 billion dollars over and above our regular War Bond buying!

In the next few weeks you may be visited by one of the thousands of volunteers who are contributing their time and effort to this Drive. But don't wait for him. Make up your mind now that before this drive is over, you're going to march right down to your nearest bank, Post Office, or place where they sell War Bonds, and do your duty. And don't ever forget this: in doing your duty, you are doing yourself one of the biggest favors of your life!

For United States War Bonds are the greatest investment in the world—bar none. They're investments tailored to fit your particular situation. And they give you the chance of a lifetime to order and GET the kind of world you want to live in after this war. Every cent you put in War Bonds now will help to guarantee plenty of peacetime jobs making peace-living for every one of us.

For your Country's sake—for your OWN sake—invest ALL YOU CAN!

### THERE ARE 7 DIFFERENT TYPES OF U. S. GOVERNMENT SECURITIES Choose The Ones Best Suited For You—

**United States War Savings Bonds—Series E**—The perfect investment for individual and family savings. Gives you back \$4 for every \$3 when the Bond matures. Designed especially for the smaller investor. Dated 1st day of month in which payment is received. Interest: 2.9% a year if held to maturity. Denomi-

nations: \$25, \$50, \$100, \$500, \$1,000. Redemption: any time 60 days after issue date. Price: 75% of maturity value.

**2½% Treasury Bonds of 1964-1969:** Readily marketable, acceptable as bank collateral, these Bonds are ideal investments for trust funds, estates and individuals. A special feature provides that they may be redeemed at par and accrued interest for the purpose of satisfying Federal estate taxes. Dated April 15, 1943; due June 15, 1969. Denominations:

\$500, \$1,000, \$10,000, \$100,000 — also \$1,000,000 if registered. Redemption: Not callable till June 15, 1964; thereafter at par and accrued interest on any interest date at 4 months' notice. Subject to Federal taxes only. Price: par and accrued interest.

**Other Securities:** Series "C" Tax Notes; ½% Certificates of Indebtedness; 2% Treasury Bonds of 1950-1952; and United States Savings Bonds Series "F": United States Savings Bonds Series "G".

**Horse in Need of Conditioning Now**

Important Factors  
In Care of Horses

Since the horse has returned to stay—for the duration at least—farmers should start now if they want to put their animals into top condition before spring work begins.

According to the department of animal pathology and hygiene at the University of Illinois college of agriculture, good feeding is essential, but consideration should also be given to methods of ridding horses of internal parasites. Bots live in the stomach, while roundworms, strongyles and other parasites live in the small and large intestine and, during certain stages of development, in other body tissues.

The best time to treat horses for parasites is during the winter months. Carbon disulphide is effective in ridding horses of bots and

Randolph Shell pours seed peanuts into a planter on his father's farm near Littleton, N. C.

roundworms. Phenothiazine, the drug now so widely used for the control of internal parasites of sheep, is particularly effective in removing strongyles from the digestive tract.

There is, however, an element of danger in the treatment of horses for parasites. Such matters as correct dosage and methods of administration, as well as care given before and after treatment, require the skill and judgment of a veterinarian. A few farmers have used parasite control measures upon advice of a veterinarian for many years.

Two other things, trimming the feet and removing sharp corners from the teeth, should be taken care of before horses are harnessed for field work. These jobs can be done at the same time the horses are given treatment for parasites.

**Hardwoods**

At the U. S. Forest Products laboratory at Madison, Wis., new wood uses have been uncovered which have been adopted by industry. Among these are wood plastics, made by heating millwaste with acids which convert it into a molding powder for floor tiles and switchboard panels.

Corrugating board for shipping containers is made from chestnut chips discarded after tannin is extracted. Black jack oak and red gum may be substituted as chestnut wood disappears through disease.

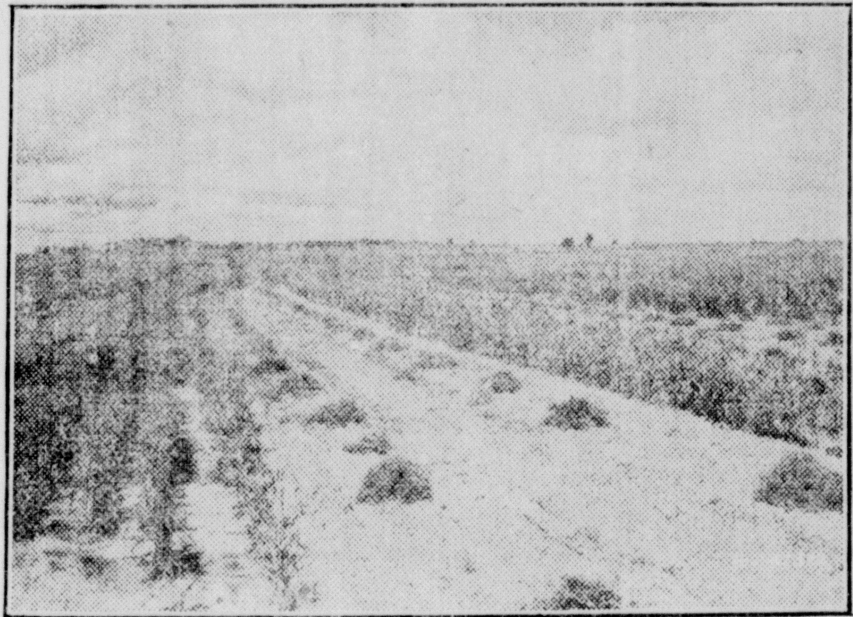

Over 200 recent buildings have utilized glued and laminated structural beams and arches which are made from cheap, low-grade small-sized boards put together under pressure. Prefabricated houses are being marketed with panels for walls, floors and roofs made from plywood glued to light frame.

Strong papers are being made for wrapping from maple, birch and aspen. Cellophane is made from pulped wood, treated chemically to convert it into jelly. This is filtered through narrow slits to become transparent sheets.

At a California lumber mill, red wood sawdust, chips and shavings are compacted under pressure into small logs sold for fireplaces, dining cars and ship galleys. Shredded redwood bark, known as Palco wool, is being marketed for insulation. When finished, it is a fluffy material resembling a mass of red hair.

Get your Typewriter Ribbon at the HERALD OFFICE.

Brookie L. Pitcock came up from San Antonio last Friday to visit his parents before going to Detroit, Michigan, to do more construction work on a government project.

**The Old Boy Looks "Blowed Up"****Then Came Strip Cropping****Strip Cropping To Prevent Wind Erosion**

The above pictures were taken in the heart of the peanut country in Comanche County near DeLeon, Texas. One field was planted almost solid with peanuts, using an 80-row strip together with a few rows of peas. Note the wind erosion. The bottom field is planted with 4-row strips of peanuts and grain sorghum. There will be little blowing away of the soil from this field.

Peanuts can be produced in this section of West Texas without allowing the farm land to be blown away. County U.S.D.A. War Boards and Soil Conservation District Supervisors are urging the farmers to use the strip crop method in this section where peanuts are grown.

Probably the best strip crop combinations for this area would be 4 rows of peanuts with 4 rows of grain sorghum. Planting of peanuts in 4 row strips will allow the use of side delivery rakes for harvesting the grain sorghum. If no mechanical means of harvesting is anticipated,

probably two rows of each would be better adapted.

The farmers in sandy areas of this county may well profit from the experiences of farmers in the older peanut growing sections. It is hoped that the soil here will not be subjected to the very severe wind erosion and abuse as was the soil in the beginning of peanut production, to the east of us, before improved practices were instituted. It is believed that much more damage will result here because of increased wind, dryer climate, and less stable soil, if steps are not taken to prevent the soil loss.

Peanut growing is new to many farmers of West Texas. Their goals have been set low enough to enable them to strip crop. It is just good sensible patriotism to raise peanuts without allowing the soil to blow away. It can be done and right now, before the crop is planted, is the time to decide to do it and earn all or as much as possible of your AAA soil building payments.

**EVERY COTTON GROWER NEEDS CERESAN THIS YEAR!**

Every cotton grower now needs CERESAN to help keep disease losses low and yields high—to avoid serious waste of seed, fertilizer and labor. CERESAN treatment of cottonseed generally reduces seed rotting, sore-shin and certain other seed-borne diseases; commonly gives stronger stands; usually increases yields, often 10 to 25%. Inexpensive. Easily applied. Treat your own seed, or buy seed marked with the CERESAN Certificate Tag. See your dealer!

**TREAT OTHER SEEDS, TOO!**  
Use Semesan Jr. for seed corn; New Improved Ceresan for small grains; Semesan for vegetables; Semesan Gel for potatoes.

Inzer Pharmacy  
HAMLIN, TEXAS

**Ignition key in your pocket—  
ACID locked in your engine**

You can't "pull the cork" to clear out every cylinder after pocketing that key. A chemical mixture always lingers inside. The corner druggist would tell you that the cylinders hold the acid products of combustion... the makings of corrosion.

You didn't have all that worry heretofore, when the worst acid was chased out again and again, by repeated driving—and by continued speed that thoroughly heated the engine. Now however, when you're counting every coupon, how long will it be till you next use your car and drive it far enough to make the engine stay real warm? Meanwhile, with acid in your one and only engine, as it stands for long stretches, you'd better take the precaution of having it internally OIL-PLATED by changing to Conoco N<sup>th</sup> motor oil this Spring.

ing it internally OIL-PLATED by changing to Conoco N<sup>th</sup> motor oil this Spring.

OIL-PLATING is really a close cousin of platings you see every day retarding corrosion. Conoco N<sup>th</sup> oil—at a popular price—includes the costly synthetic that makes OIL-PLATING come between acids and inner engine surfaces. Unlike mere liquid lubricant, ready to drain down to the crankcase promptly, OIL-PLATING tends to stay at its topmost point in your inactive engine, strongly opposing acid attack on inner parts that can't always be replaced these days. The simple key to OIL-PLATING is Conoco N<sup>th</sup> oil for your needed Spring change—at Your Mileage Merchant's Conoco station today. Continental Oil Co.

### The Schubert Club Meets For Program

The Schubert Music Club met Wednesday afternoon, March 31, in the club room in the Methodist church. The program on Scandinavian Music, was directed by Mrs. Henry Albritton, who gave an interesting talk on A Visit to Norway and Musical Life in Festive Copenhagen. Other numbers on the program were a vocal duet, "I Love You," by Mrs. L. H. McBride and Mrs. Bill Rountree. A piano solo, "Bereause" by Mrs. Joe W. McCrary. A paper, Stockholm The Magnificent, was read by Mrs. Thomas Ferguson.

Choral practice followed the program.

### Former Hamlin Girl Marries In San Antonio

Miss Faye Barton, daughter of Mr. and Mrs. Carl Barton, of Dayton, Texas, and Staff Sergeant Donald Olson, of Sacramento, California, were married Saturday, March 27, in San Antonio. The ceremony was read by the Rev. Bond in his home with Sergeant and Mrs. Donald Gibson the only attendants.

The bride wore a suit of aqua blue with accessories of maroon. Her corsage was fashioned of maroon and white carnations.

Mrs. Olson was a 1939 graduate of Hamlin High school and is now employed in San Antonio by Southwestern Bell Telephone Company.

Sgt. Olson is stationed at Kelly Field. He and his wife are making their home in San Antonio.

Get your Typewriter Ribbon at the HERALD OFFICE.

### Woman's Literary Club Hears Health Program

Mrs. W. A. Albritton was hostess Friday afternoon in her home on Central Avenue to The Woman's Literary Club for a program on Safety And Health In The Home.

Members responded to roll call with Something New in Medical Research. Mrs. D. W. Stell, program directors, discussed Safety In The Home and First Aid talks were made by Mrs. G. R. Bennett, who discussed dressings and bandages, and Mrs. John Walton, who told what to do for shock and unconsciousness.

In the business session the club donated ten dollars to the Red Cross and voted to donate books for the Victory Book Drive.

Mrs. Tate May, Junior Club sponsor, gave an interesting report on the work of the club.

Mrs. Clem E. Ball, member of the Hamlin Woman's Literary Club, was the guest speaker at the Stamford Pierian Club Thursday afternoon. Mrs. Ball has gained a fine reputation as a book reviewer, and she gave a review of Steinbeck's book, "The Moon Is Down." Several Hamlin women accompanied Mrs. Ball to Stamford.

### NEINDA NEWS

By Ettie Hodges and Artha Lee Tollison

Mrs. Arthur Eddington and her daughters of Houston, Texas, visited her parents, Mr. and Mrs. J. N. Hubbard, last week.

Mr. and Mrs. Bunk Gill, Mr. and Mrs. Tom Gregory, Mr. and Mrs. Irby Weaver and son, Mr. and Mrs. Audrey Hodnett and son, enjoyed games of 42 at the home of Mr. and Mrs. T. W. Fleniken and children Saturday night. Refreshments were served.

Visiting Mr. and Mrs. D. A. Baldwin and Mrs. Alice Baldwin the past few days were: Mr. O. H. Baldwin of Caddo, Okla., Mrs. N. J. Sanders and son of Oklahoma City, and Mr. O. G. Thompson of Shawnee, Oklahoma.

Mrs. John Scarborough of Dallas, visited her parents, Mr. and Mrs. Charlie Gregory and family and other relatives and friends for a few days.

Miss Annie Ruth Hodnett who is working at Dallas, visited her parents, Mr. and Mrs. H. C. Hodnett for a few days.

Kevin and Dwain Rogers spent Saturday night and Sunday visiting relatives in McCauley.

Dolores and Sonny Williams of Abilene spent the week end with Edythe and Ettie Hodges.

Bro. and Mrs. Grady Adcock and daughter spent Saturday night and Sunday with Mr. and Mrs. Morgan Drummond.

Mrs. Arnold Galloway was brought home Sunday from the Stamford hospital. She is doing fine. Her husband, Pvt. Galloway, was given a 15 days furlough.

The school children enjoyed a picnic April 1st.

Mr. D. A. Baldwin and Mr. Thompson returned Saturday night from a trip to Hobbs, New Mexico. Mr. Thompson left for his home Sunday.

## POT SHOTS FROM McCAULLEY

BY GEO. DARDEN

A large crowd saw the Junior play at the school house last Thursday night. The game was over forty dollars and we can truthfully say that it was a jam-up good play.

Mrs. Raymond E. Morgan is visiting for a few days in the home of Miss Ruth and Melvin Hunter. Lt. Morgan is in the Quartermaster Corps and stationed at Ft. Sheridan, Illinois. Mrs. Morgan sends us a dollar for a year's subscription to the Herald to be sent to her mother Mrs. Una Hunter of Roby. Thanks. After a brief stay in the Hunter home, Mrs. Morgan will join her husband, Lt. Morgan in Illinois. Lt. Morgan is formerly of Hamlin.

Mrs. S. E. Miers has been ill for the past several days and is confined to her bed.

Louie Jones and Mr. and Mrs. Tom Nall of Slaton visited last week end with relatives in McCauley and Hamlin.

J. H. Milsap is seriously ill at this writing and is in a Rotan hospital.

Lt. Billie Pickron is home on leave from his air base in Arizona. Also on leave from training bases are Roland Stephenson of the army and Elwood Keane of the Navy.

Mrs. Dan Maberry and Mrs. Della Fancher are on the sick list this week.

Thanks to Mrs. T. C. Barnes and Mrs. Luther Maberry for a year's subscription to the Herald.

Miss Frances Davison, daughter of Mr. and Mrs. W. F. Davison, was

home over the week end and was accompanied by her room mate, Miss Audra Borden of Junction. Both are attending N. T. S. T. C. at Denton.

Mr. and Mrs. Lon Andress and daughter of Fort Worth were week end visitors with relatives and with friends in McCauley.

Well, it's either get a defense job or get ready to serve Uncle Sam in the armed forces before May the 1st, and if you are eighteen or forty-four and have a dozen dependents that's a small matter. We have heard that life begins at forty. That being the case, then ye old scribbler begins to live next Sunday, April 11 and perhaps we will be doing squads right before another year rolls around. As we have said before, "What is to be will be" and this is as much our war as the other fellows, and the only weak spot about us is upstairs and when Uncle Sam is ready we are ready. Might enjoy cutting off a few Japs ears anyway.

The ladies of this community have completed 42 ladies' blouses for the Red Cross here of late. Those who sewed for the Red Cross were Mmes. Luther Maberry, Ted Abbott, Jim Jackson, Eula McHone, Bill Pickron, Etta Stephenson, Geo. Darden, John Shelley, A. S. Smith, Will Davison, Frank McCasland, Frank Maberry, J. H. Milsap, Omar Prather, C. E. Dick, L. H. Boyd and Ben Kemp. There is no more sewing on hand at present but it will be announced at a later date when there is more to be done.

Pvt. Jim (Todd) Rushing writes his sister, Mrs. R. L. Miers, to keep the Pot-Shots coming to him. Jim is stationed in North Carolina. How are you doing, Todd?

The home folks are getting pretty tired of rotten politics which is hampering the war effort. One Senator hurries back to Washington to help override the veto of the Bankhead Bill. It seems that the President with all his war worries, is having a lot of trouble in keeping down inflation.

The folks back home want the war won and if members of Congress would lay aside all petty grievances and co-operate with the Commander-In-Chief in his fight to keep down inflation then there would not be so many fronts to fight on.

We may as well face facts. The yellow hordes of Japan and Hitler's mighty military machine is a long way from being whipped and the more Congress squabbles, fumes, and fusses, the longer it will take to win this war. The masses are not interested in headline hunters and the Lord knows we have plenty of such politicians in Washington.

We who are old enough to remember the struggle that Woodrow Wilson made in the last war and he too had opposition which perhaps shortened his days on this earth. Now is the time that those who represent us to co-operate fully with our Commander-In-Chief.

It is true, that what goes up must come down, and inflation with sky-high prices would be a catastrophe. Perhaps high prices would benefit a few at present but the here-after must be considered and why make future generations suffer in order to satisfy the greedy now?

Oh yes, we haven't forgotten the promises made by certain members of Congress, how they would co-operate with the President if only the people would send them back to Washington. But now it's different. They are on the payroll, eating out of the public trough and it seems that their attitude toward the war effort is a secondary matter. So long as we keep sending scatter-brains to Washington—we shall reap what we sow.

A DARDEN-O-GRAM

Ralph Dean came up from Hondo, Texas, last Friday to be at home with his parents, Mr. and Mrs. W. H. Dean. Ralph has been clerking in the Southern Pacific Railroad depot at Hondo for several months. He says he will stay at home until you see he is going to be 19 in September and that's that. He has a leave of absence from the road for the duration.

### CHICKENS — TURKEYS Star Sulphurous Compound

Given in drinking water or feed destroys the intestinal germs and worms that cause most all diseases as they enter the fowl in feed, preventing most all diseases. Also rids them of blood-sucking lice, mites, fleas, blue bugs and red bugs that kill many of your chicks. Costs very little to use. Money back if not satisfied.

INZER PHARMACY  
Hamlin, Texas, Phone 33 (20tf)

### NOTICE

On Sept. 1, 1939, Hitler went into the Poles' backyard and took what he wanted—no one to stop him he became bolder and since that time he has gone into the backyard of nearly every nation in Europe and took what he wanted—he does not intend to give it back—but the fellow who went into my backyard a few days ago and took 50 feet of rubber hose and a brass nozzle is going to bring them back, aren't you?
